### Grand Valley State Mary Idema Pew Library Tour

The Mary Idema Pew Library Learning and Information Commons is designed to be the intellectual heart of the Allendale Campus. It will exceed the expectations of anyone who thinks of a library solely as a home for printed books and whispered words. In this new library, students will find a range of environments, from noisy to quiet, in which they can work on an assignment alone or in a group; receive coaching from a peer consultant in research, writing, or presenting; practice a new skill or play with a new idea; learn something unexpectedly; engage easily with each other in spaces engineered to accommodate the sounds of natural conversation; or curl up by the fireplace in a contemplative space with the best views on campus. Students will do all of these things in a building that was crafted with their needs in mind—the right lighting, the right furniture, the right resources, the right services, the right spaces, and the right amount of flexibility. "Going to the library" will take on a whole new meaning as the Mary Idema Pew Library Learning and Information Commons becomes and integral part of every student's experience at Grand Valley.

# GEORGETOWN SENIORS, INC. MISSION STATEMENT

Our Senior Center is a community focal point on aging where older persons as individuals or in groups come together for services and activities which enhance their dignity, support their independence and encourage their involvement in and with the community. As part of a comprehensive community strategy to meet the needs of older persons, Senior Center programs take place within and emanate from the facility. These programs consist of a variety of services and activities in such areas as education, creative arts, recreation, advocacy, leadership development, employment, health, nutrition, social work and other supportive services. The Center also serves as a community resource for information on aging, for training professionals and lay leadership and for developing new approaches to aging problems.
